SEM: EFFICIENT. META: VOLUME.

Full Metrics Comparison: SEM vs Meta (Q1+Q2 Combined)			
Metric	**SEM Q1+Q2**	**Meta Q1+Q2**	**SEM Advantage?**
Spend	$504,465	$3,061,129	
Revenue	$13,331,397	$63,074,616	
Orders	57,290	202,130	
CPC	$0.92	$0.52	**Meta wins**
CPA	$8.81	$15.14	**SEM wins (42% cheaper)**
CTR	1.22%	1.22%	Tied
CVR	10.43%	3.41%	**SEM wins (3x higher)**

KEY INSIGHT

SEM delivers the cheapest orders at $8.81 CPA, but Meta's massive scale drives 78% of all purchases. Chewy needs both channels working together, with SEM handling efficiency and Meta handling reach.

SEM PERFORMANCE ANALYSIS

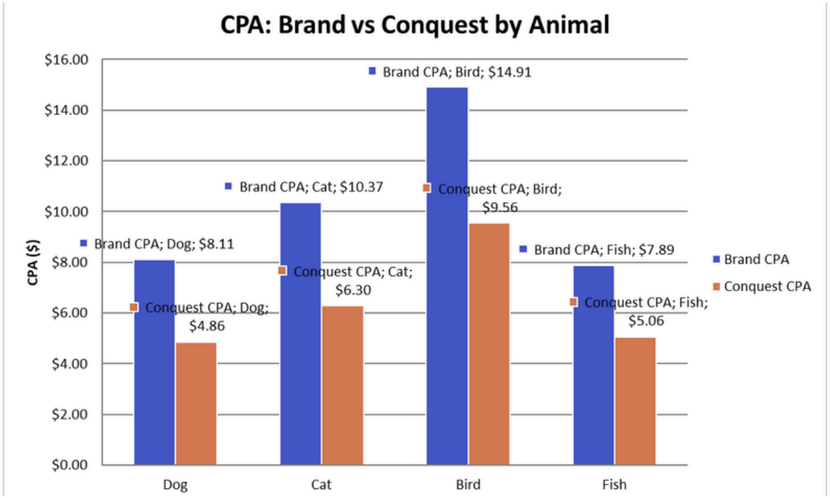

figure 1: Conquest campaigns (brown) consistently deliver cheaper orders than Brand (blue) across every animal. Dog Conquest at $4.86 is the lowest CPA in the entire report.

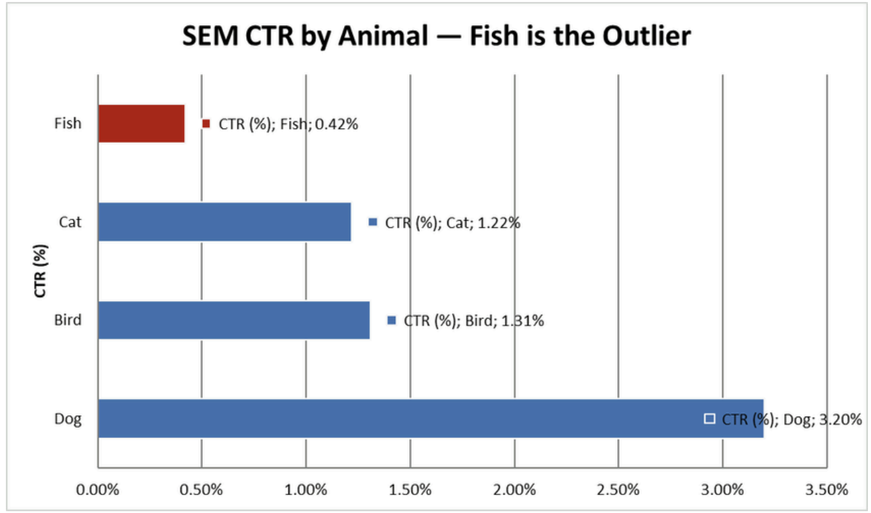

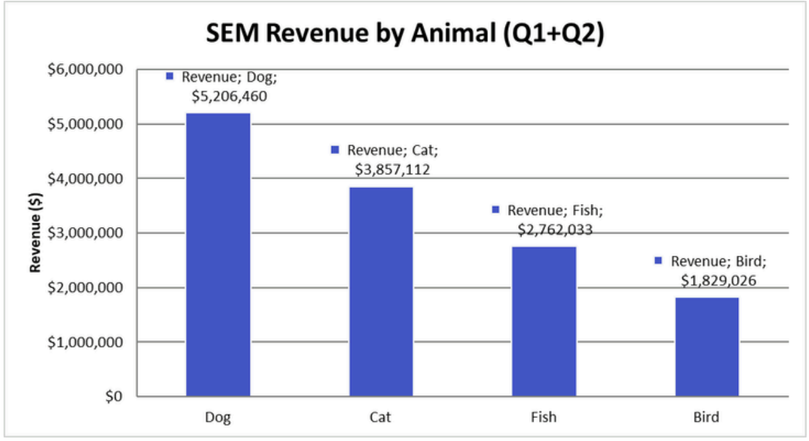

figure 2: Fish CTR (0.42%) is 8x lower than Dog (3.20%), meaning almost nobody is clicking Fish ads despite strong conversion rates. a keyword or ad copy issue that needs testing.

KEY INSIGHT

Dog leads SEM with **$5.2M** in revenue at the **lowest CPA**, while competitor-targeting campaigns deliver the cheapest orders on just **14%** of budget.

Investing more in competitor targeting and fixing Fish's low CTR are the two biggest SEM opportunities heading into Q3.

figure 3: Dog drives $5.2M in SEM revenue, nearly 40% of the channel's total, confirming it as the top priority for SEM budget allocation.

PAID SOCIAL (META) PERFORMANCE

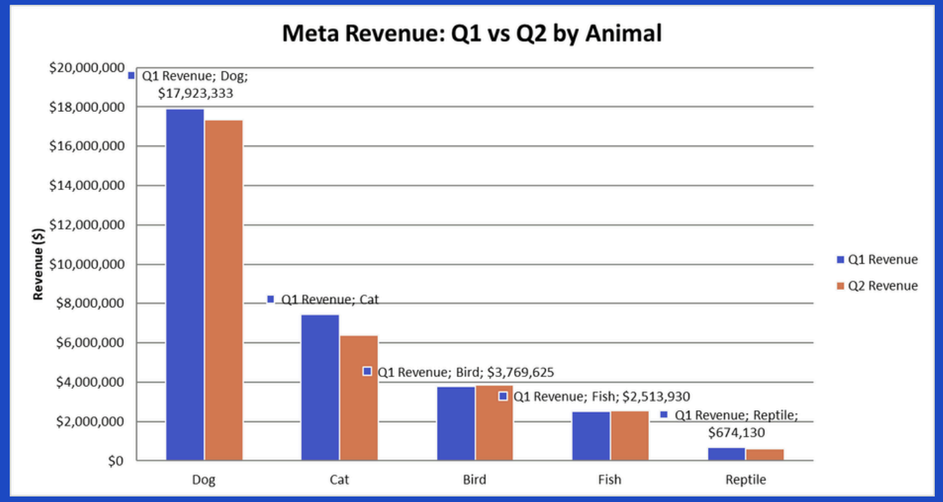

FIGURE 1: *REVENUE Q1 VS Q2: DOG HELD STEADY AT $17M+ BOTH QUARTERS, WHILE CAT DROPPED 14%;THE BIGGEST REVENUE DECLINE BY DOLLAR AMOUNT.*

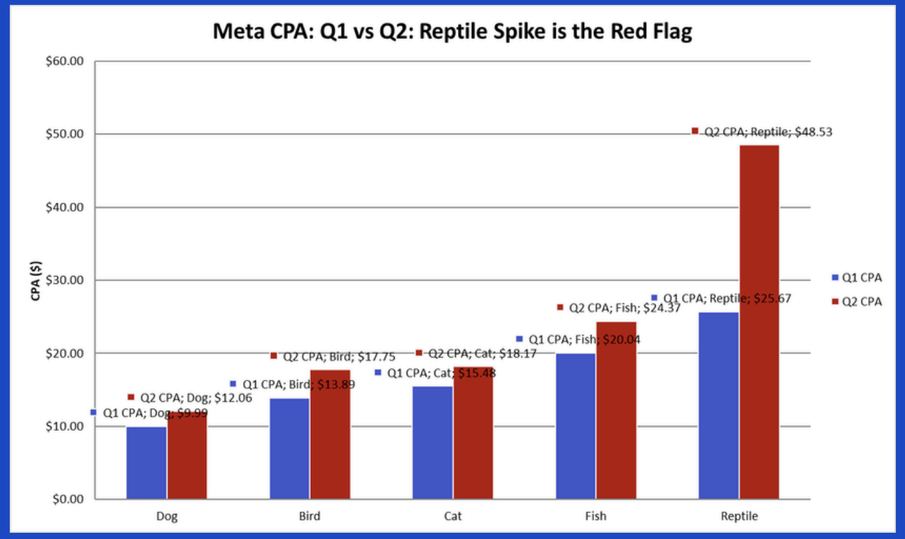

FIGURE 3: *CPA Q1 VS Q2: REPTILE CPA NEARLY DOUBLED FROM $25.67 TO $48.53. THE CLEAREST SIGNAL TO PAUSE THAT CAMPAIGN.*

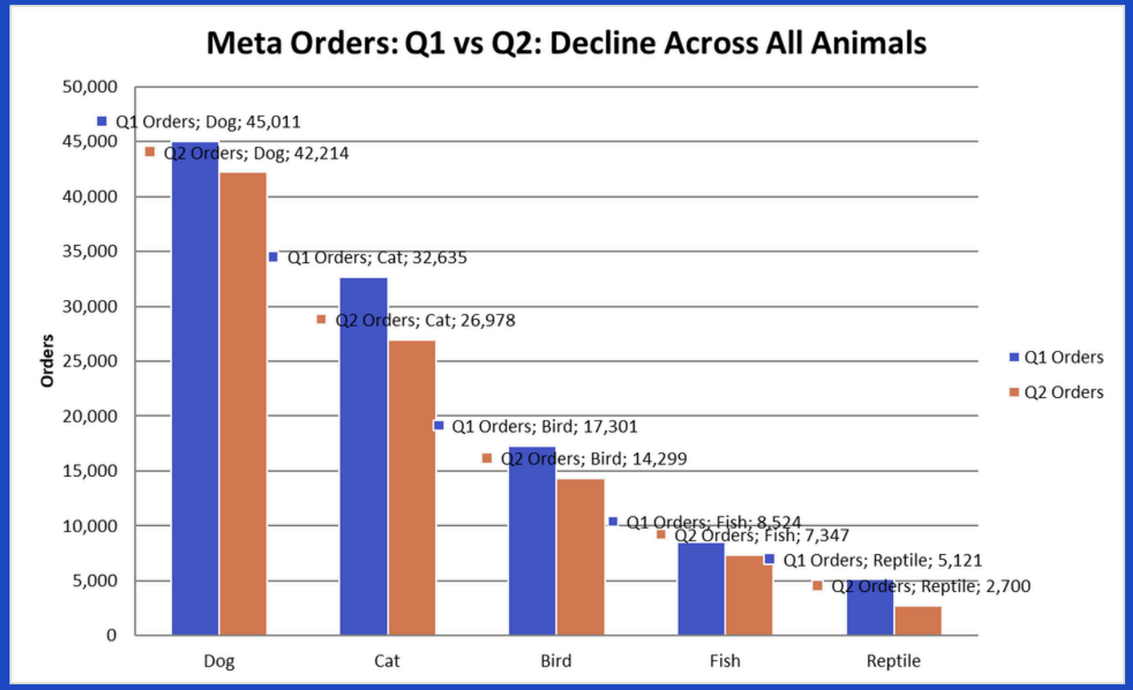

FIGURE 2: *ORDERS Q1 VS Q2: EVERY ANIMAL SAW FEWER ORDERS IN Q2, WITH REPTILE DROPPING 47% AND CAT DROPPING 17%.:*

KEY INSIGHT

Meta drives 83% of Chewy's revenue but Q2 efficiency dropped sharply. orders fell 14% while spend rose 4%, pushing CPA up 21%. Dog Retargeting remains the strongest earner, but Reptile's CPA nearly doubling to $48.53 signals it's time to reallocate that budget.

TOP PERFORMERS

Award	Campaign	Channel	Quarter	Value
Highest Revenue	Dog Retarget	Meta	Q1	$15,900,000
Most Cost-Efficient	Fish Conquest	SEM	Q1	$3.87
Highest Order Volume	Cat Retarget	Meta	Q1	21,837
Best CTR	Dog Brand	SEM	Q2	3.78%

BOTTOM PERFORMERS

Award	Campaign	Channel	Quarter	Value
Worst CPA	Reptile Retarget	Meta	Q2	$76.31
Lowest Revenue	Fish Conquest	SEM	Q2	$37,870
Lowest CTR	Fish Conquest	SEM	Q2	0.08%
Biggest Order Decline	Reptile Retarget	Meta	Q1>Q2	-58.0%

KEY INSIGHT

Dog and Cat campaigns drive **84%** of revenue and orders at the lowest CPAs, while Reptile **($76.31 CPA)** and Fish **(0.08% CTR)** are dragging Q2 efficiency down.

Reallocating their combined budget to proven Dog and Cat campaigns is the clearest path to better Q3 results.

SEM: HALF THE COST. 3× THE CONVERSION.

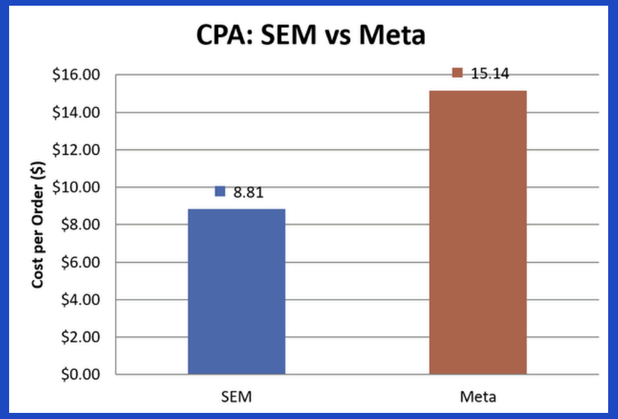

FIGURE 1: CPA: SEM VS META → SEM ACQUIRES ORDERS AT HALF THE COST

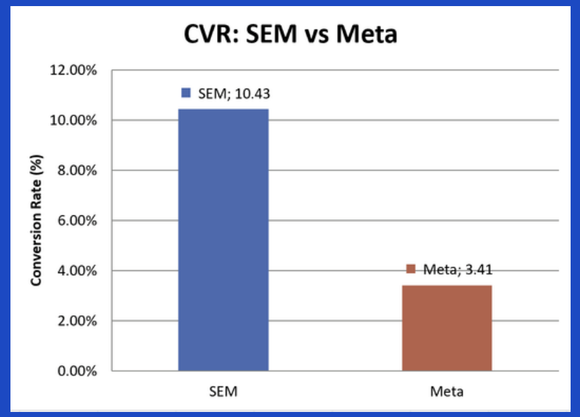

FIGURE 2: CVR: SEM VS META → SEM CONVERTS CLICKS 3× MORE OFTEN

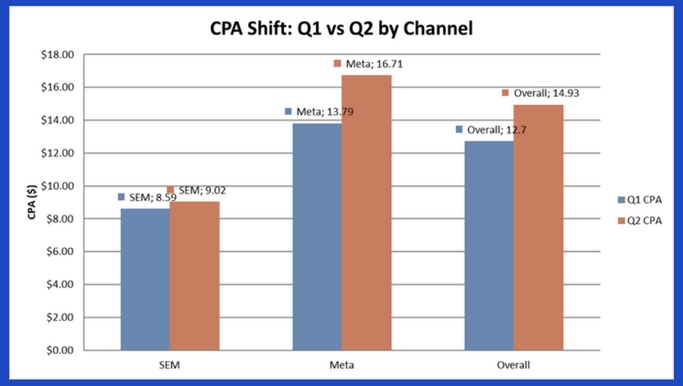

FIGURE 3: CPA SHIFT: Q1 VS Q2 BY CHANNEL → META'S EFFICIENCY COLLAPSED; SEM STAYED STABLE

KEY INSIGHT

SEM costs 42% less per order and converts 3× better than Meta. cheaper Meta clicks don't compensate for its far lower conversion rate.

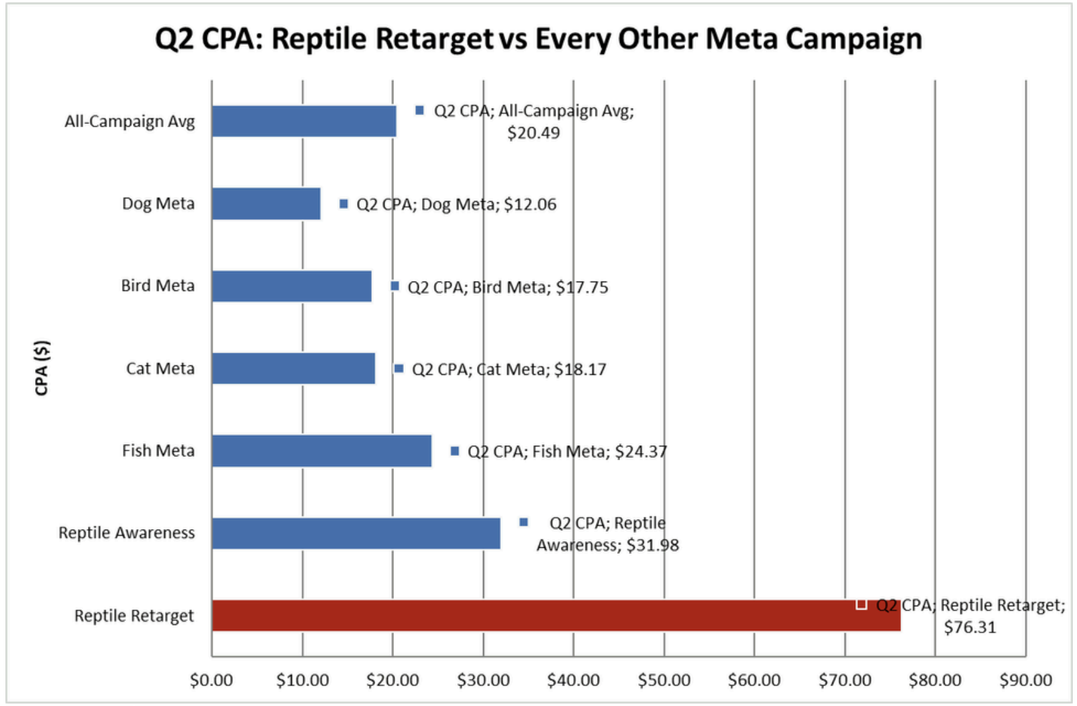

FIGURE 1: AT $76.31, REPTILE RETARGET COSTS MORE PER ORDER THAN EVERY OTHER META CAMPAIGN COMBINED. DOG GETS AN ORDER FOR $12.06.

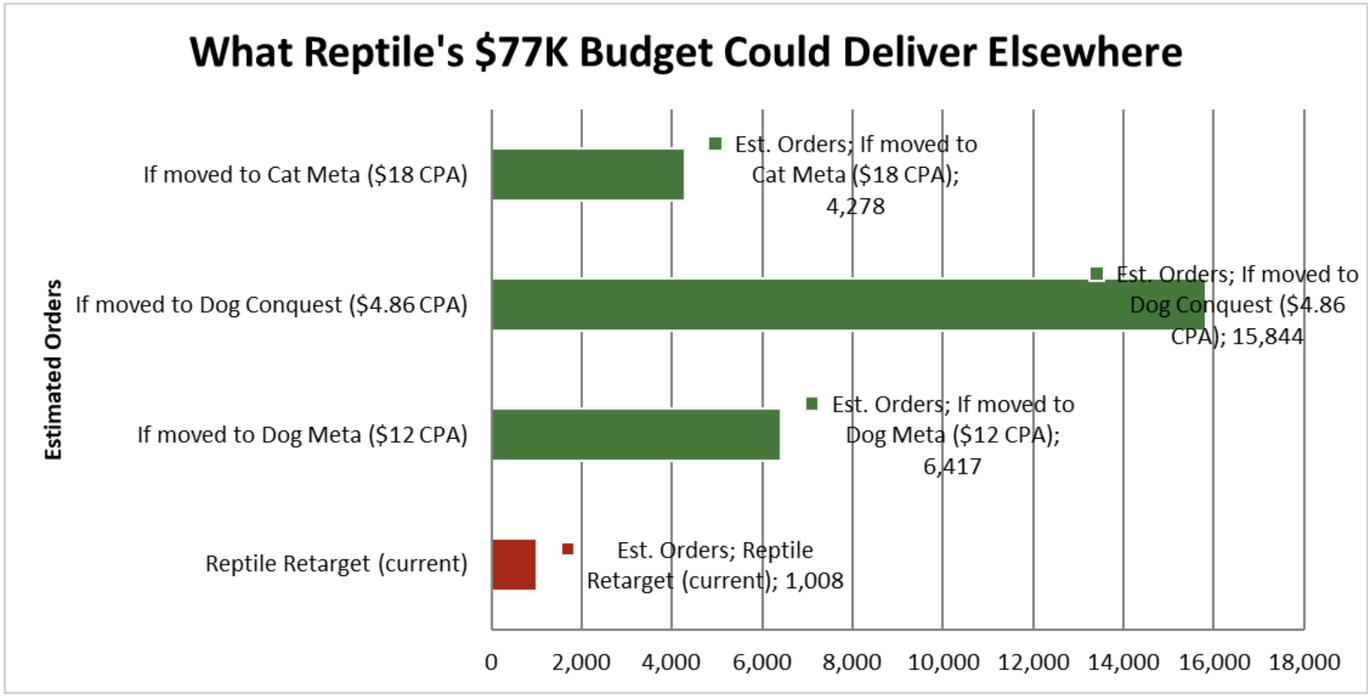

FIGURE 2: THE $77K SPENT ON REPTILE RETARGET BOUGHT 1,008 ORDERS. THAT SAME BUDGET IN DOG CONQUEST COULD BUY 15,844 ORDERS. NEARLY 16X MORE.

KEY INSIGHT

Reptile Retargeting is costing Chewy $76 per order. 3.5x the campaign average, while orders dropped 58% in Q2. Reallocating that $77K to Dog Conquest alone could generate 15x more orders at a fraction of the cost.

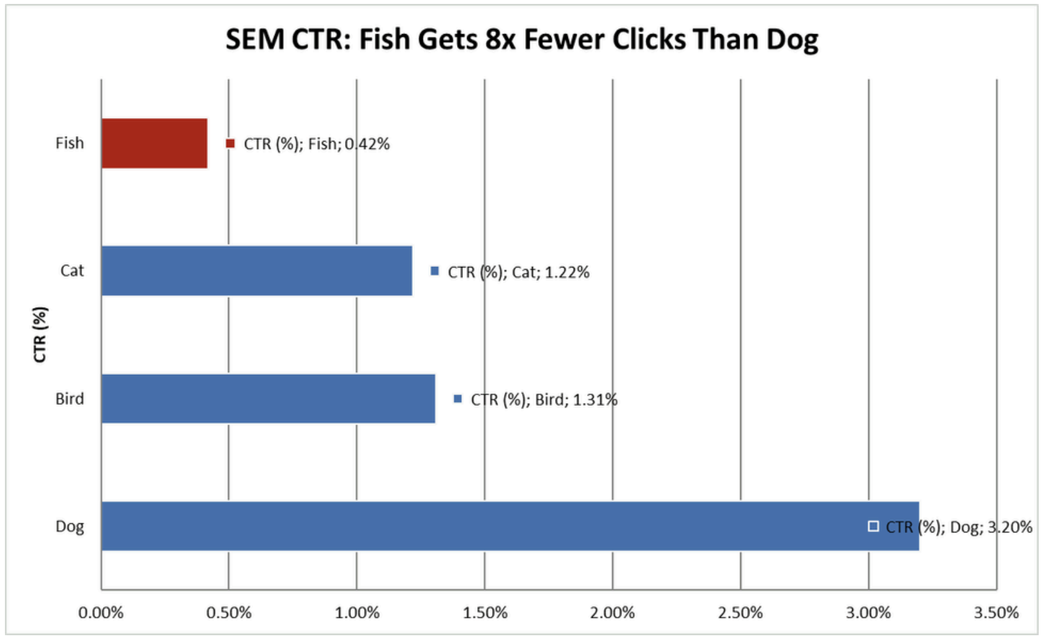

Figure1: Fish CTR (0.42%) is 8x lower than Dog (3.20%). almost nobody sees or clicks Fish ads, which is why revenue is low despite strong conversion.

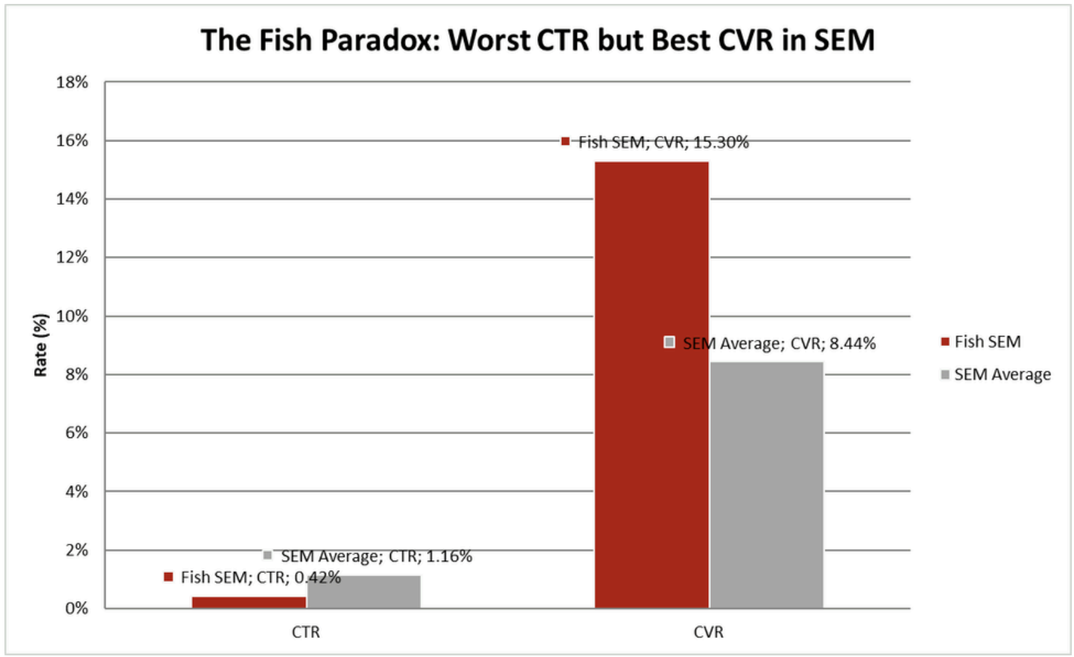

Figure 2: Fish has the worst CTR in SEM but the best CVR. The few people who click are buying. The problem is reach, not the product or landing page.

KEY INSIGHT

Fish SEM has the best conversion rate in the portfolio but the worst click-through rate. People who find Fish ads are buying, but almost nobody is finding them. Don't cut the budget; fix the reach by testing broader keywords and higher bids.

Animal	CTR (%)	CVR (%)	CTR Rank	CVR Rank
Bird	**1.78%**	**2.89%**	**1**	**5**
Dog	1.38%	3.69%	2	3
Cat	0.96%	4.60%	3	2
Reptile	0.83%	3.15%	4	4
Fish	0.42%	4.88%	5	1

figure 1: The animals that get the most clicks aren't the ones that convert best. Bird ranks #1 in CTR but last in CVR, while Fish is last in CTR but #1 in CVR. Bird's ads grab attention but don't close the sale; Fish's ads are hard to find but convert almost every click

KEY INSIGHT

Highest CTR (1.78%) but lowest CVR (2.89%)

Strong ad engagement, but poor post-click conversion

Performance drop-off happens on the landing page

Indicates issues with UX, product offering, or pricing

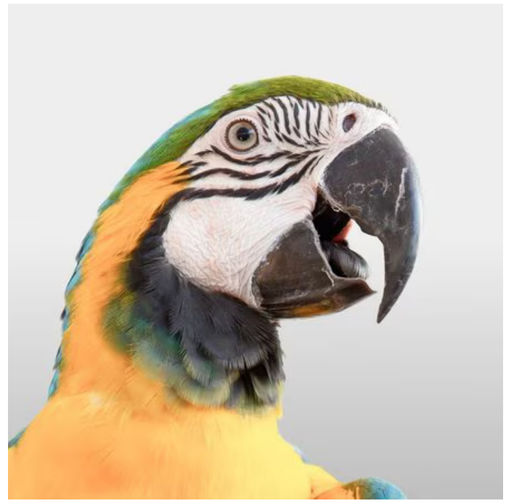

Opportunity to improve conversions without increasing spend

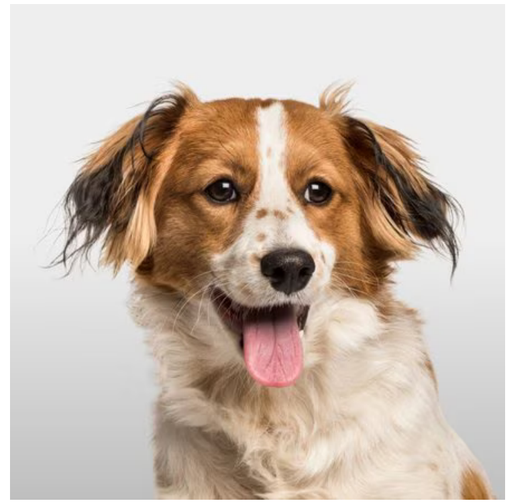

FIVE KEY FINDINGS

1. Dog is the revenue engine 54% of revenue, lowest CPA.
2. Cat is the consistency play Strong CVR, maintain current spend.
3. Q2 efficiency declined sharply CPA up 15%, Meta drove it.
4. Reptile Retargeting is burning budget 3.7x average CPA, recommend pausing.
5. SEM Conquest is underinvested Best CPAs in portfolio, scale up.

RECOMMENDATIONS

Based on Q1–Q2 performance

INCREASE DOG BUDGET ACROSS ALL CHANNELS.
15-20% Lowest CPA, highest revenue, scale it.

MAINTAIN CAT META RETARGETING INVESTMENT.
Strong orders and CVR, no changes.

PAUSE REPTILE RETARGETING ON META.
$76.31 CPA, reallocate to Dog/Cat.

DOUBLE SEM CONQUEST BUDGETS
Best CPAs, only 14% of spend.

TEST BROADER FISH SEM KEYWORDS
High CVR, almost no clicks.

AUDIT META Q2 EFFICIENCY DECLINE
21% CPA spike, biggest red flag.

WHAT WE FOUND

1. $76.4M revenue on $3.57M spend. $21 back for every $1 invested
2. Dog (54%) + Cat (23%) = 77% of all revenue
3. Q2 efficiency dropped. Meta CPA rose 21%, SEM stayed stable
4. Reptile Retarget: $76 per order, 3.5x the average; pause it
5. Fish SEM: best conversion rate, worst click rate. Fix reach, not spend

NEXT STEPS

1. Pause Reptile Retargeting → reallocate $77K to Dog & Cat
2. Increase Dog budget 15-20%
3. Double SEM Conquest for Dog & Cat
3. Test broader Fish SEM keywords
4. Audit Meta Q2 decline + Bird landing pages
